

Dear Parents and Guardians,

With the end of the school year quickly upon us, we know that you are making plans for your child's summer vacation activities. Like most parents, you are aware that while the summer months are a welcome opportunity for fun and relaxation, the break from school activities often causes students to experience a lag in learning upon returning to school in the fall. In an effort to lessen this effect, the third grade teachers have created a summer reading requirement. This requirement's aim is to help reduce the usual summer learning loss by providing assignments and suggestions for students' summer reading.

The guidelines for the program are simple. All students are asked to read at least one Magic Tree House book over their vacation. The students are then to complete the Magic Tree House packet. **Their report will be due the first day of school. This will be your child's first grade of the school year.**

In addition to their required reading and book packet, the students will also need to work on their math facts this summer. It is very important to practice addition and subtraction facts with your child. Students must be able to recall basic facts accurately, quickly, and effortlessly to be successful in math. It is also important that your child practice their cursive handwriting over the summer.

We hope that you will join us in this important effort and assist your child in their summer reading and math.

Thank you,

The Third Grade Teachers

My Magic Tree House

book study

by _____

My Favorite Character

Character's name: _____

Reasons I like this character:

All About the Setting

Draw and tell about where Jack and
Annie went in the story.

The Story's Sequence

Beginning

Middle

End

1

Jack's

Notebook

Copy down some of the things that
Jack wrote in his notebook!

All About the Visitor

After the wish was made to be
somewhere else, Jack and Annie saw and
heard _____

This is what it looked like:

Design a Tree House

If you could build your own tree house, what would it look like? Make a list of all the things you'd like your tree house to have! Then draw a picture of it on the back of this page.

A spiral-bound notebook is positioned in the center of the page. The notebook's cover features a simple line drawing of a tree house. The text "My tree house needs..." is written on the notebook's cover in a cursive, handwritten style. The notebook is open, showing a blank page on the inside of the cover.

My tree house needs...

Adding 2 single-digit numbers
